TRANSMITTAL OF BUILDING 867 PLENUM FAN ROOM -- PRE DEMOLITION SURVEY
REPORT (PDSR) -- DWF-054-03

Provided for your review and approval is the enclosed subject report for the Building Plenum Fan Room. This report characterizes the physical, chemical, and radiological hazards associated with this facility, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results.

Based upon this PDSR and subject to concurrence by the CDPHE, Building 867 Plenum Fan Room is considered a RFCA Type 2 facility pursuant to the RFETS Decommissioning Program Plan (DPP, K-H, 1999) and is acceptable for demolition.

Please notify Kaiser-Hill when you transmit this document to CDPHE. If you have any questions, do not hesitate to call Duane Parsons at extension 6458.

Denver, Colorado 80246-1530**

Dear Mr. Gunderson

Please find enclosed the Pre-Demolition Survey Report (PDSR) for Buildings 865 and 868. They are submitted for formal approval and documentation purposes as work is proceeding based on Contact Records authorizing demolition to proceed. Both buildings have been characterized as type 2 facilities.

The Building 865 PDSR is supplemented with the enclosed Building 865 High Bay Demolition Path-Forward Plan (Plan) dated June 5, 2003. It describes the steps necessary to safely demolish the building with fixed contamination on the floor and in floor cracks and seams. One minor variation from the enclosed Plan has been made and is hereby delineated. The shallow floor pits in the high bay area will not be filled with gravel as they have been completely covered with the InstaCote protective barrier and gravel is thought to be redundant.

Questions may be directed to Steve Tower at (303) 966-2133

Sincerely,

Joseph A. Legare

RE: Pre-Demolition Survey Report (PDSR) for Building 867 - Approval

Dear Mr Legare

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 867, Revision 0 dated August 14, 2003, received on August 26, 2003 Based on the information contained in this PDSR, we are hereby approving the PDSR for B867

As indicated in the August 12 and 13, 2003 Contact Records we previously gave verbal concurrence to demolish B867

Although it may be possible that the concrete generated from the demolition of B867 (the slab) could meet the free-release requirements and be recycled on site, the slab under B867 is not specifically included in this PDSR investigation As such, it is our understanding that the concrete material will not be recycled and will be properly characterized and, at a minimum, will be sent off site to a solid waste landfill

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328

Sincerely,

Steven H Gunderson
